Dear Parents/Carers,

As you may know, it is Mental Health Awareness Week next week. We will be discussing this during our assemblies and reminding the children of the learning that took place during Children's Mental Awareness Week earlier this year. Next week's theme is connecting with nature which we will be exploring further during our Wellbeing Week soon (see info below).

Online Behaviour: We will also be discussing online behaviour, so that our children can further develop their understanding of how to keep themselves and others safe, and how to avoid conflict when they are communicating with other children. We talk so much about showing kind behaviour at Highcliffe and keep explaining that this also needs to be the case online. We will continue to focus on this so that the children can engage with each other online without feeling worried about somebody being unkind, and all know to:

Reminder: Confirmed Cases—Please inform school via pupilinfo@highcliffe.rac.sch.uk if your child tests positive for COVID, **even if this is over a weekend.** Please do not send your child to school if they have a temperature, cough or a change to/loss of taste or smell. If these symptoms present themselves whilst the children are in school, we will need to send them home to isolate with the rest of their family and get tested. A reminder that everybody older than primary school age can access twice weekly lateral flow tests to reduce the risk of transmission in schools.

Wellbeing Week

As part of our ongoing focus on mental health and resilience, we are planning a wellbeing week that will take place at the end of this half term. We will be asking the children to contribute to a designated area in our school grounds that can be used all year round to support wellbeing—something we feel is more important than ever given the events of the past year and the subsequent impact on so many. We hope that this area will also act as a reminder of our school community's continued resilience.
